

DOGE SHIBA

Whitepaper

WHAT IS DOGESHIBA?

DogeShiba is the first Shiba-themed coin on the new meme blockchain, DogeChain.

There are no bigger success stories in the world of meme coins than DogeCoin and Shiba Inu. With DogeShiba, we combined them together in order to create the ultimate meme coin.

DogeChain is quickly positioning itself to become the leading Blockchain when it comes to the development of meme coins, and DogeShiba was the very first coin to launch and quickly gather a big community of passionate people.

THE TECH

With an experienced team of developers, DogeShiba does not simply aim to be the number one meme coin on DogeChain, but also to provide a series of utilities and services for the chain at large.

The DogeShiba team is successfully developing services for the DogeChain traders and developers, such as token lockers, staking and much more.

THE ECOSYSTEM

DogeShiba's series of utilities have the double function of providing useful services to traders and developers on DogeChain, and helping sustain the growth of DogeShiba through buybacks, burns and much more.

The DogeShiba developers have launched many successful utilities which are part of the DogeShiba Ecosystem, such as the NFT Rewards Program and DogeFood, the first DogeCoin miner.

THE VISION

Even though us, the DogeShiba team, want to provide valuable utilities, we will never forget that DogeShiba is a meme coin at heart.

Doge and Shiba are our inspirations.

Our mission is to spread humor, happiness and positivity across the DeFi space during rough times in the market.

We are DogeShiba.
We bring back
the old school.

TOKENOMICS

9% TAX

Buy/Sell

- **1% Liquidity**
- **2% NFT Rewards**
- **6% Marketing**

2% Max Wallet/Transaction

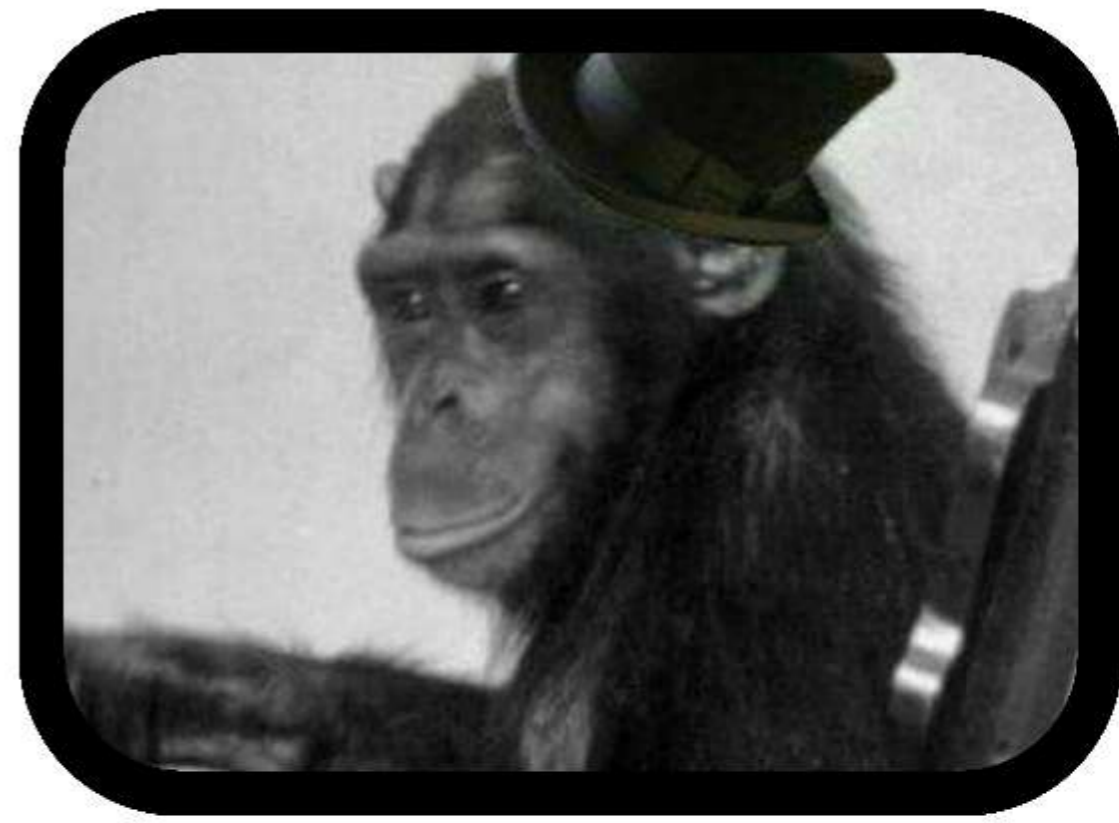

1000.000.000.000 Supply
